

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

# MORTALITY STATISTICS OF 1,447 CITIES AND TOWNS OF THE UNITED STATES FOR THE YEAR ENDED DECEMBER 31, 1899.

[This table was compiled from answers received to circular letters sent to cities and towns of the United States having a population of 1,000 or more. The cities and towns responding have been entered herein. Attention is called to the two columns showing the annual mortality rate per 1,000 of the population, the one table being based on the estimated population and the other upon the population according to the United States Census of 1900.]

Cities or towns.	Total deaths from all causes.	Population, U. S. census of 1900.	Annual mortality per 1,000 of population, U. S. Census, 1900.	Estimated population.	Annual mortality per 1,000 of the estimated population.	Deaths from—						
						Phthisis pulmonalis.	Smallpox.	Enteric fever.	Measles.	Scarlet fever.	Diphtheria and membr. croup.	Whooping cough.
